

WHITE PEONY

IMPORTANT - These instructions will help to ensure that you identify the correct wool colours for your canvas. Colours on the canvas differ from the wool for various reasons and simply trying to match the wool directly to the canvas will result in identification errors. Following the system detailed below will avoid disappointment.

BEFORE YOU START:

Your tapestry canvas has been designed with a detachable strip of colour blocks on both sides. Please cut these off as indicated and, by matching the numbers below, attach a small piece of yarn to the matching colour block. This key can be kept independent of the canvas and, as you stitch, will enable you to identify easily the printed colours on your design. The figures in () indicate how many lengths of a shade have been provided.

INSTRUCTIONS

1. Five bundles of wool are provided to stitch this design. The colour key below gives you details of what colours are in each bundle. Close colours have been separated into different bundles to avoid confusion.
2. The bundles are identified by numbered collars.

COLOUR KEY

BUNDLE 1

B/G (80)

BUNDLE 2

B/G (40)

1064 Maroon (20)

1151 Pale Green (20)
